

Certificate Of Approval Of A Fibre Reinforcement

1. The purpose of this certificate is to provide a formal approval of a fibre reinforcement system for use in the construction of a structure. This approval is based on the results of a series of tests conducted in accordance with the relevant standards and specifications.

2. The tests were conducted by a qualified and experienced engineer, who has verified the performance of the fibre reinforcement system under various conditions. The results of the tests have shown that the system meets the required performance criteria and is suitable for use in the proposed application.
